- we stock wire mesh sheeting.
- we buy our aluminum extrusions directly from the extruder.

## Industries Served

Agriculture  
Automotive  
Aerospace  
Electronics  
Food  
Medical  
Military  
Pharmaceutical  
Railroad  
Recreational Vehicles

July 1, 2011

**Tomes Industries, Inc.**, is a firm specializing in manufacturing precision machined products, using all types of metalworking equipment. We work with manufacturing companies, building tools and finished products, as well as complete machines to their needs, which all can require close tolerances (perfect parts). A wide array of materials are used, from plastic to tool steels, which allows us to meet each of our customers specific wants and needs. Our design team can help turn your problem into a cost effective solution.

## Precision News

Introducing...The Strap Wrap. After delivering large projects, we always found ourselves rolling our straps up by hand, which was wast-ing time. We came up with a solu-

tion that solved this problem. The Strap Wrap can coil your straps in a matter of seconds.

The Strap Wrap can be used on your trailer or within your facility with our quick-change attachments.

The Strap Wrap is **adjustable** and can wrap straps up to 4 inches wide. If you need a wider Strap Wrap, we can custom make one to fit your needs.

Every minute saved, is a minute that can be spent elsewhere being more productive.

Have your logistics department give us a call today.

## Maximize Production

Don't forget to check out our line of ergonomic handling & linear transfer equipment.

These systems are adaptable to any repetitive motion in your facility.

Pictured is the EZ-Lift System. Click the link below to view informa-tional video:

## Organizational Tip

We strive to stay organized around Tomes Industries. Tie downs and straps were creating a dilemma. So we modified an old free grocery cart, keeping all our straps in one place, in order and organized. This saves us valuable time, as we now are able to wheel the cart to the loading/unloading area. So quick and easy. At Tomes...free is good.

## Machine Safety Guards

Keep your work environment safe with machine safety guards. We carry wire mesh sheeting (in black and yellow), polycarbonate, and also aluminum extrusions in 40mm square and 40mm X 80mm rectangular size, along with all the fasteners needed to take care of your safety issues. We buy in bulk, and pass the savings on to you.

*Happy Independence Day*

What did one flag say to  
the other flag?  
Nothing. It just waved!

## Inventory

We carry many  
types of:

- Steel
- Plastics
- Fasteners
- Tooling
- Electrical
- Hydraulic
- Pneumatic
- Safety Mesh
- Aluminum Extrusions

**Geared for all your precision manufacturing and design needs!**

## Unique Project

These plating line unloaders were custom built for the automation of a plating line.

Let's team up and find a way for your company to become more efficient. We can help with the design and implementation of automation, tooling and production projects. No matter the size or scale of your project, attention is paid to every detail to ensure every project is completed with the highest level of quality.

Our capabilities along with our design, machining, fabrication and assembly teams, allow us to fulfill all your needs. Review our website for an overview of our capabilities.

## Fourth of July

**Fourth of July** brings on the cheerful times of red, white and blue. It is a federal holiday commemorating the adoption of the Declaration of Independence on July 4, 1776, declaring independence from the Kingdom of Great Britain and is the national day of the United States.

Wishing you all a safe holiday weekend. Celebrate the birthday of America and enjoy your summer and pleasant times with your family and friends.
